Determined learner driven to deliver the best work possible. I am looking for a junior developer position on a team where I can contribute and continue to learn and improve on my skills.

Technical Skills

Object Oriented Programming: Java | C++ | C#

Web App Development: HTML | CSS | JavaScript | jQuery | JSTL/JSP

Development Techniques: Git | Eclipse | TDD | JUnit | Jsoup | Integration Testing | DbVisualizer | Heroku | Spring MVC

Education

Tech Elevator - Cleveland, OH

May 2018 - Present

Attending a 14-week Java coding bootcamp learning how to develop dynamic web based software systems using the Java language and platform.

Cuyahoga Comm. College - Programming & Development

Aug 2016 - May 2018

Learned common practices in designing, implementing, testing and maintaining software systems using a variety of languages and technologies. 67 credit hours completed.

- 3.8 GPA
- Honors Program
- Phi Theta Kappa International Honors Society

Technical Projects

Home Run Tracker: Project using Java and web-scraping with Jsoup to retrieve and display player home run totals stored in player and team object settings for a Home Run Derby style fantasy baseball program.

National Parks Weather Service: Web application using Spring MVC, PostgreSQL, JDBC/DAOs, Java/JSTL to generate HTML, and CSS. Set up a web page using database info relating to National Parks and their details. The page tracks user preferences by manipulating session data. Users can take the daily survey and view the favorite parks based on the database stored surveys.

Vending Machine Project: Command line program simulating vending machine interface. User can view and purchase items, program keeps records of each each transaction. OOP practices including use of file Input/Output.

National Parks Registration: Command line program to view/utilize campground information/reservations in Java and PostgreSQL with focus on JDBC and DAOs.

Volunteer Experience

GiveCamp 2018: Worked on a team to help a local non-profit organization upgrade to a new system in which they log volunteer hours/information and track earned credit transactions. Focused on the setup and querying of a new database.

Experience

JACK Casino - Table Games Supervisor - Cleveland, OH

Oct 2013 - May 2018

- Duties included game protection through the enforcement of procedures and observation, customer and daily reports.
- Provided an outstanding guest experience through customer interactions and game knowledge.
